Create workgroups

Nicolas ARBOUIN - 2025-08-27 - Mangae your platform

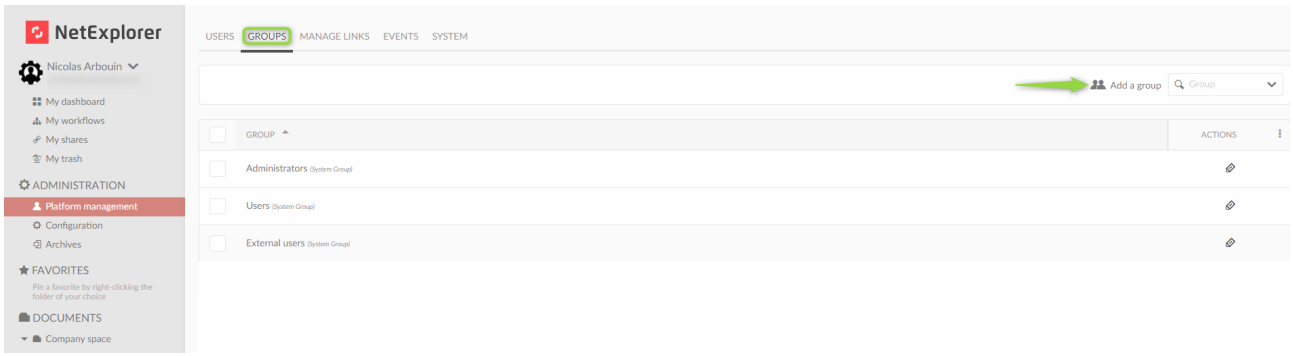
Create workgroups

Regroup users having the same accesses,enhance,organize and save time

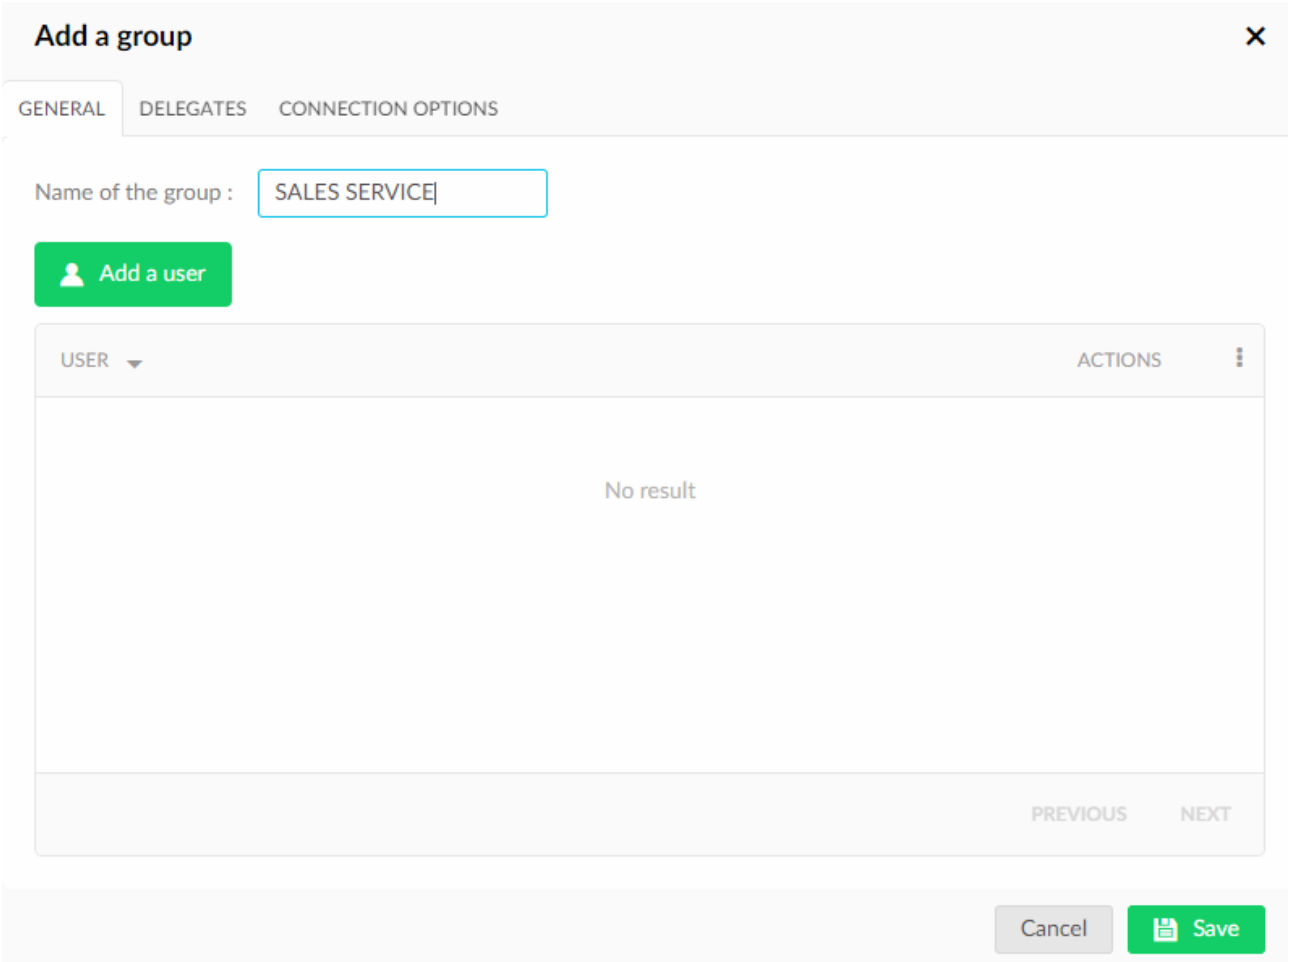
This page is dedicated to administrators

Create your groups

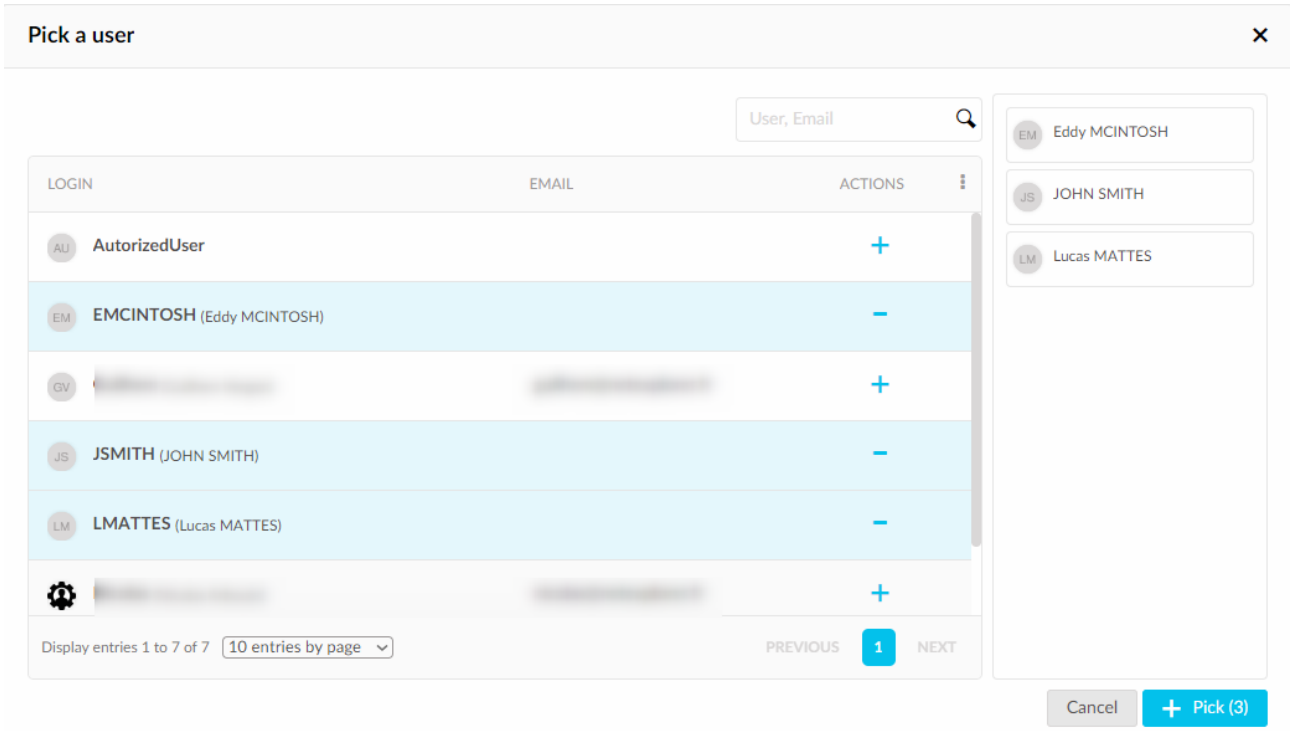
Using an administrator account, go to Platform Management, then in the "Groups" tab and create your group using button



Add members with the "Add" button,

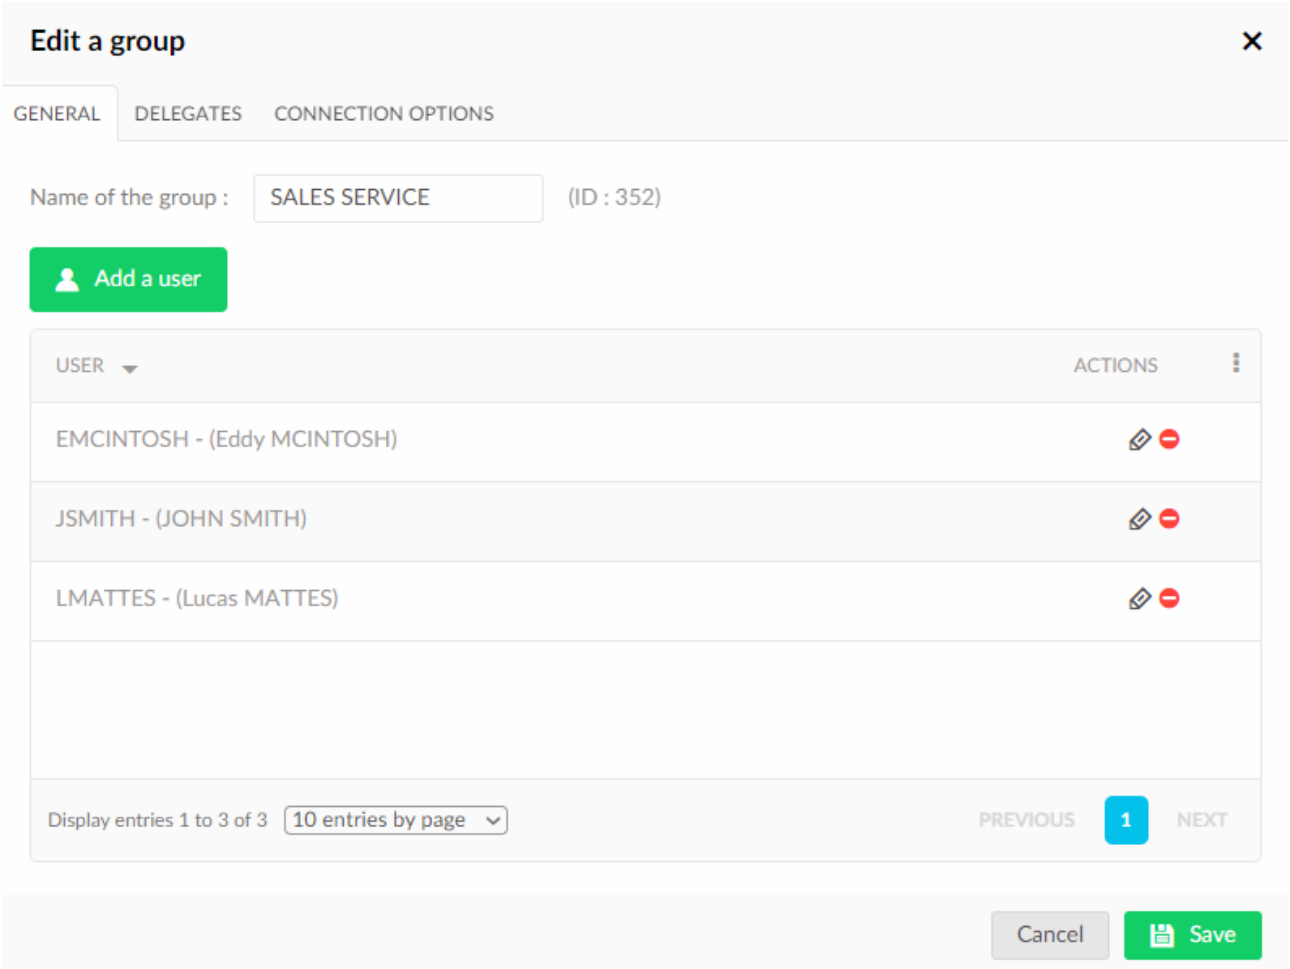


then validate and save. You can add several in a row.



Finally click on and then

Once validated, you will see the added users



You can now set access rights.

For further information about access rights, see that page.
