Display NetSync icon in taskbar on Windows 10

To ensure that NetSync is properly working and synchronizing data, you can permanently.

For this :

- **Press Windows key** on your keyboard and begin to type **Settings**, **click on it to open settings**.

- In Windows Settings, click on **Personalisation**, then select **Taskbar**. 
- Look for "Notification area" and click on "**Select which icons appear on the taskbar**"
- You get to a list of programs, just spot NetSync and activate it by switching this button to the right. 
From now, you will see NetSync icon permanently so you will know its state any time you need to.

Icon is no longer hidden in taskbar.

Display NetSync in taskbar on Windows 7

- **Right-click** on taskbar and select **Properties**.
- In "Notification area" click on "**Personalisation**".
- **Look for NetSync** in the list and select "**display icons and notifications**".
- **Click OK to validate**.
