Clear offline cache

- Rate us on [Apple Store](#)

[Send feedback](#)

- Ask for HELP

Help

- See **App version**

About

3.0.0

## Notes

- 
- iOS App allows you to consult and share documents from any machine, with or without internet access.
  - You can also edit documents, please prefer tablet for this as it will be harder on smartphone due to the size of screen.
  - To enjoy of all the features, you will need **iOs 12 or higher**.
