

Connexion options

Guilhem VERGON - 2025-09-15 - [Mangae your platform](#)

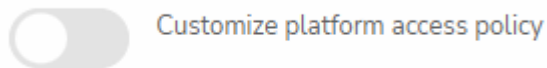

You can setup access policy directly for everyone or groups or users.

On users or groups

- From your NetExplorer platform,
- Go to Management/users (or **Groups**), click on 3 dots/modify to open edition of user/group.

- in the window, go to "access policy" tab and tick this option :

Default access policy settings

- From your Netexplorer plateform,
- Go to Configuration/Security and compliance and click on :

- **Platform access policy**
Set the platform access policies: authorized applications, connection IPs and scheduling, two-factor authentication. These access policies can also be set by user or group.

[Configure](#)

(Once modifications are made, it will change options for users whose options are set on "default")

Don't forget to save modifications !

Set platform access policy

Synchronisation with NetExplorer Drive

Allow the use of mobile applications
